Decorating: Favorite Fall Colors

I like to use unexpected [color combinations](#) for a rich, inviting composition in fall schemes. In this image of a hallway, the soft blue (Benjamin Moore "Misty Gray"), provides a warm juxtaposition to more dramatic checkerboard floors. In the Living Room beyond, the combination of Benjamin Moore "Iced Cube Silver" on the paneled walls with the lilac of the [window](#) treatments makes for a subtle, yet effective contrast for these interiors.
